

TOOLED & READY TO ORDER

Quality Resourcing Services

CREATED FOR PACKAGING • BUILT ON SERVICE

OUR MISSION

To provide packaging development, sourcing and supply for those without the expertise, infrastructure or desire to manage it internally.

QRS is dedicated to providing the ultimate level of customer service.

VALUE ADDED

As your partner, the team at QRS works through the entire process. This includes, but is not limited to, navigating the early stages with your design team, continuing by ensuring package integrity, and finally working with manufacturers to identify production challenges including the need for tooling.
